TO WHOM IT MAY CONCERN

As a Salon Owner and qualified aesthetician for the past twenty years, I have always been very particular and concern for my customers' well being and health, especially during their regular visits to my salon for their facial or body treatments.

It has always been my first priority that the ambience in my salon must always be filled with clean, refreshed air, relaxing and welcoming to my esteemed busy clients.

When I was first introduced to BREATHE air purifier, I was very impressed with its design, look and its essential oil solutions with its aromatherapy concept and I invested in the product and used it at my salon to ensure my staff and clients would also enjoy the benefits of BREATHE. Indeed, everyone was very happy with BREATHE !

I usually use Green apple, Lavender and Eucalyptus within my salon premises as it helps my clients to relax and unwind body, mind and soul after a long hectic day. Since I used BREATHE, my clients also agree that the air feels more refreshed and clean.

I have also introduced BREATHE to my loyal and esteemed customers and they are very happy with the product too.

Thanks to BREATHE !

Chris Chan
Salon Owner
